Basecoat the entire surface with decoart cashmere beige DA091 {oyster beige DA313}

The size of the frame is 14 ¼" square with the frame being 4 ½" wide all the way around the opening measures 5 ½" square. Again, it could be painted on anything else even just a straight board or on a square without the cutout. A clock could be added in the center.

Again, basecoat the entire surface in cashmere beige DA091 {oyster beige DA313}

And bring to class
